

## MegaNatural® Red Wine Grape Extract with *trans*-Resveratrol

Polyphenolics has successfully developed a de-alcoholized Red Wine Grape Extract with *trans*-Resveratrol for dietary supplements.

Published science recognizes both flavonoid polyphenols and resveratrol as powerful antioxidants and now points to benefits from the synergy of flavonoids with resveratrol.

Details of resveratrol's functionality in the anti-aging of animal cells mesh with the role of flavonols (procyanidin monomers) which are pivotal for nitric oxide formation and blood vessel relaxation. Science connects these naturally-occurring micronutrients and their value for healthy circulation.\*

Together, natural wine grape flavonoids and *trans*-Resveratrol can unlock the mystery of grapes and cardiovascular protection for a healthy heart.\*

200 mg provides approximately 50-60 times more *trans*-Resveratrol in its active form than would be present in one glass of wine made from red wine grapes.

## MegaNatural®-Red Wine Grape Extract with *trans*-Resveratrol may:

- Promote healthy aging\*
- Support cardiovascular health\*
- Help with the relaxation of blood vessels\*
- Help protect against free radical damage\*
- Help support the formation of Nitric Oxide in the body\*

To learn more about using MegaNatural®-Red Wine Grape Extract with *trans*-Resveratrol in your dietary supplements, medical foods or beverages, call 866.308.7678 or visit us at [www.Polyphenolics.com](http://www.Polyphenolics.com).
